Chapin's Stand N' Spray™ Sprayer

Item #: 29003

Introducing the latest from Chapin International.
The Stand N' Spray® Sprayer takes the bending out of spraying. The extended pump handle allows the user to pressurize the sprayer without bending over. An ergonomically designed handle lets users pump and carry with comfort. The 18" wand also keeps the consumer upright during applications. Additional features include a wide opening for easy filling, Anti Clog Filter, and the quality construction Chapin is known for. Motivated by the consumers request for the optimal sprayer, the Stand N' Spray has taken the compressed air sprayer to new heights.

Earth Friendly
